Reference: NORTH BEVERLY TRAFFIC CALMING STUDY

Dear Resident/Business

The City of Beverly is studying the effects of cut-through traffic on residential streets in the North Beverly community. The City's consultant, WorldTech Engineering, is assisting with the study and wants to get **your** input on concerns and potential improvements.

The City will conduct a community workshop on **Thursday, April 7, 2016 at 6:00 p.m.** at City Hall. This meeting will include a presentation of traffic data collected, potential traffic calming measures to discourage through traffic on local streets, an update on the reconstruction of Henry's intersection as well as an opportunity for area residents and businesses to voice their concerns regarding cut through traffic.

We invite you to come and learn more about this important project. Your input is valued and welcomed.

Sincerely yours,

A handwritten signature in black ink, which appears to read "Michael P. Cahill". The signature is fluid and cursive.

Michael P. Cahill
Mayor
